EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: One reason for allowance is that the device for shaping pipe ends includes inter alia a first and second separate pressure spaces for the shaping unit and the prestressing unit where there is no fluid communication between the pressure spaces and they can be independently pressured and the first and second pressure spaces are completely separate from one another. The complete separation between the pressure spaces in conjunction with the claimed limitations is not shown by the prior art of record since Parker (W0 02/13992 A1) and Ose (5,134,872), for example, show that there is not any independent arrangement between the pressure spaces because movement of one depends on movement of the other. Furthermore, because of the interconnection between the cylinders/pistons, the pressure spaces are not completely separate from one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
